

AVIATION SAFETY MANAGEMENT COURSES

14 - 25 May 2018

East African School of Aviation, Nairobi, Kenya

Dear Industry Colleagues,

In the month of May 2018, we invite you to participate in two consecutive programmes on Aviation Safety Management, to be held at the East African School of Aviation in Nairobi, Kenya. Details of the programmes are listed below. Please help spread the word among your friends and colleagues.

SAFETY PROGRAMMES

SAFETY MANAGEMENT SYSTEMS (SMS) IMPLEMENTATION

14 - 18 May 2018

Gain competencies on facilitating the design, implementation and maintenance of an operationally effective SMS to meet the standards prescribed in ICAO Annex 19 (Safety Management), ICAO Doc 9859 (Safety Management Manual (SMM)) and other related guidance materials.

WHO SHOULD ATTEND?

This course is beneficial to safety personnel from aviation service providers including airlines, maintenance organisations, air navigation service providers, airport authorities and design and manufacturing organisations. It is also relevant to other personnel from State regulatory and administrative organisations who are supporting the implementation of an SMS in their organisations.

STATE SAFETY PROGRAMME IMPLEMENTATION

21 - 25 May 2018

Learn the fundamentals of safety management principles and concepts and apply ICAO Annex 19 SARPs and ICAO Doc 9859 (SMM) guidance material relating to State Safety Management implementation and its processes.

WHO SHOULD ATTEND?

This course is beneficial to personnel responsible for the implementation of SSP and oversight of service providers' SMS in the areas of aircraft operations, air traffic services, maintenance and repair organisations, design and manufacturing organisations and aerodrome operations from civil aviation administrations.

WHY YOU SHOULD ATTEND

Gain competencies on how to design, implement and maintenance of an operationally effective safety management system (SMS)

Understanding risks, errors and violations, and how to effectively manage them to develop the right safety culture

Identify key safety concepts and ICAO requirements for State Safety Programme (SSP) and SMS

Learn about change management and how to enforce policy and procedures
